BOIL WATER NOTICE RESCINDED

September 11, 2020

On September 3, 2020, the Texas Commission on Environmental Quality required the RCH Water Supply Corporation, PWS 1990012 to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate that the water no longer requires boiling prior to use as of September 11, 2020. **This rescind notice is for all RCH WSC customers EXCEPT High Point Ranch and High Point Lake Estates.**

Please reduce your outside watering to help with low water pressure that we are currently having system wide. If you have any questions concerning this matter, you may contact RCH Water Supply at (972) 722-3203. Please check rchwater.com for the latest information.
